SHOT THREE MEN.

Geo. Hatcher Uses Winchester Freely in Floyd County.

Will Goodman, George Smith and Vincent Wounded More or Less Seriously by the Fusilade.

Between one and two o'clock on Wednesday afternoon George Hatcher, who is said to have been intoxicated at the time he committed the deed, shot and wounded three men, one of whom will probably die. The scene of the shooting was Harold, a station on the C. & O. about 18 miles east of Prestonsburg, and the wounded men are George Smith, shot through the arm; Vincent, of Soldier, Ky., shot through the head, and Will Goodman, shot through the body. Smith's wound is the least, and he will soon recover. The ball which struck Vincent down entered just back of his left ear and came out near the left eye, inflicting a very serious wound. Vincent is a C. & O. brakeman and was taken to his home Thursday morning.

Goodman's wound is the worst. The ball entered his back, near the left side, and passed entirely through his body. The weapon used was a Winchester rifle. Hatcher was arrested and was to have an examining trial Thursday.

The shooting occurred near the station, one story being that one or more of the wounded men were in the depot when they were shot. Hatcher lives about a hundred yards from the station. He is a son of Mrs. Nannie Hatcher, of Harold. She was at one time a resident of this city, and is a sister of James Johns, of Louisa. Two of his children attended school here last winter, boarding with their kinwoman, Mrs. Lucy Caldwell. Hatcher and Smith, one of the victims of his fury, are brothers-in-law, having married sisters.

The foregoing are the general facts in this latest of Floyd's frays, the most diligent inquiry failing to learn particulars. Whatever could have caused the affair no one seems to know. It is evident, however, that whiskey was a very prominent factor in this, as it certainly was in the previous homicidal outbreaks which have stained the history of Floyd county. The Webb law, of which so much had been expected, has proved to be a farcical failure. Liquor is continually taken into the county, and so long as this is the case brawls and homicides will occur.

Another report says there had been bad feeling for some time between Smith and Hatcher. On this occasion the trouble was renewed and Smith struck Hatcher with a rock. The latter then got his Winchester rifle and shot Smith, and also Goodman, who seems to have been mixed up in the trouble. Vincent was accidentally shot. Neither of the wounds is expected to result fatally.

HAVE GONE EAST.

The Rev. Frederick Shannon and wife and Frederick, Jr., left here on Tuesday morning last for York, Pa., where they will spend the remainder of the summer with Mrs. Shannon's relatives. They had spent a pleasant month in Louisa, where Mr. Shannon, contrary to the adage concerning prophets and their own country is with great honor. He visited a country meeting in this vicinity where the ancient rite of footwashing was observed, which was the first religious observation of washing feet he had ever witnessed. A preacher who can make sermons of the gleam of reflected light from a window, a brook, a tiny flower or a stone by the roadside will find much for a discourse in what he saw and heard the last Sunday of his stay with the people of his "ain country."

Some of the classes of the M. E. church South Sunday school enjoyed a pleasant picnic on Friday last.

MR. AND MRS. WEIS.

Mr. and Mrs. Phares Weis, of Moberly, Missouri, were in this city Monday on their way home from Rochester, N. Y., where Mr. Weis had attended the Elks reunion. Mr. Weis is the son of Dr. F. W. Weis and wife, who formerly lived in this city. He left Louisa 20 years ago and had not been here since. He married not quite a year ago, winning a very bright and attractive young girl. Mr. and Mrs. Weis spent the day pleasantly in visiting Louisa, whom he knew when a boy, and who were glad to see that the bright little fellow of a fifth of a century ago had grown into a good looking, well appearing young man. He is in the general insurance business. The other living brother, Roy, is a traveling man. The youngest child, Rolla, died here and is buried in Pine Hill. While here Mr. Weis arranged for the erection of a suitable monument to his brother's memory.

SENTENCED FOR LIFE.

Andrew Johnson was found guilty of complicity in the assassination of Ed Callahan, former Sheriff and noted feudist of Breathitt county, and was given a life sentence. The trial of Fletcher Deaton, also charged with conspiracy in the assassination plot, was begun immediately. There are 18 more to be tried for the murder and twelve for perjury.

SPECIAL EXAMINATION.

A special first grade or clerical examination for positions in the internal revenue service of the Seventh Kentucky District will be held at Ashland, Ky., on August 16, 1913. Applicants to the District Secretary, room 403, postoffice building, Cincinnati, O., must be filed not later than the hour of closing business on August 11, 1913.

AT AGE OF 87

W. P. Byington Passes Away at Home in this County.

Mr. W. P. Byington died at his home on Bear creek, three miles from Buchanan, last Monday at the age of 87. He had been sick only a few days, and up to that time had been very active for a man of his years. A short time ago a very heavy rain fell in that vicinity and his barn was surrounded by water. He was caught there and had to wade through the water. It is thought his death was the result of this experience. The burial occurred on Wednesday. Prof. W. M. Byington, a son, was called from this place on Monday and was present when death came. Miss Goldie Byington accompanied her father.

The deceased came from Virginia to this county in his youth and spent almost his entire life in the neighborhood where he died. He was a good citizen.

His widow, who is about the same age as her husband was, is sick and her relatives fear she will not long survive her husband.

NO BRIDGE FOR IRONTON.

As was stated in this paper several weeks ago, the government has ordered the C. H. & D., and B. & O. railroads to either commence work on the bridge across the Ohio at Ironton or removed the piers. Last week it became known that the railroads have decided to remove the piers which will end all hopes of seeing a bridge across the Ohio river at Ironton.

COST OF GOOD ROADS.

The government reports show that the cost of building good roads is not greater than the increase in the value of the lands adjoining them. So farmers can afford to build good roads without any cost to themselves.

MARRIED IN CATLETTSBURG.

Miss Jennie Frazier, of Wayne, and Noah Hatten, of Prichard, W. Va., were married Saturday evening about 8 o'clock on the lawn of the court house, the Rev. B. S. Wellman officiating.

GREAT ACTIVITY

In the Development of Big Sandy Coal Fields.

Whitesburg, Ky., July 21.—The industrial development, opening of mines, the building of cities almost over night, and railroad construction in Eastern Kentucky's rich coal fields is attracting the attention of the industrial world. At present considerable railroad building is under way, while an even greater amount is planned for the very near future. Engineers are rapidly locating the Rockhouse branch of the Lexington & Eastern, up Rockhouse creek, an important coal and timber section of this county, which will be completed within the next ten or fifteen days. Immediately following it is said a contract is to be let for the building of the road.

A number of other short line branches out from the L. & E. are being planned, some of which are being constructed; one, the Mace creek branch, out from Masu, near the Letcher-Perry border, below here, to reach rich coal and timber properties. Here the Mowbray & Robinson Lumber Company are planning the early installation of large lumber mills.

In the Beaver creek field, north of here, which will become a close second to the Elkhorn field, the Beaver branch of the Chesapeake & Ohio is being rapidly extended to Steel's creek, twenty-two miles, while engineers are rushing the survey of a branch of the Baltimore & Ohio paralleling the C. & O., to reach the rich coal properties of the Great Mineral Fuel Company, building the new city of Weeksbury, construction of which was started only a few weeks ago. Already considerable headway has been reached by the new city.

The city is situated on the property of the Beaver Creek Fuel Co., a mammoth concern, interested also in the work of development. There is much speculation as to the ultimate purpose of the Baltimore & Ohio in entering this field, and it is said that they are pushing to form a connection with the Lexington & Eastern in the Boone's Fork field of this county. At the same time the line would pass through the properties of the Mineral Fuel Company, along Beaver creek, which consists of some 50,000 acres of rich properties.

The Beaver Creek Coal and Gas Company, recently organized in Baltimore are planning some gigantic developments along the Upper Beaver creek, which mean the expenditure of several millions of dollars.

Rush work characterized the construction of the Carolina, Clinchfield & Ohio from Dante, Virginia, through "the Breaks" of the Big Sandy river, of the Chesapeake & Ohio, and by spring the road will be completed. A number of big tunnels have delayed the work of construction. An important connection is to be built with this road—the Virginia & Kentucky from Wise, Va., through the Birchfield, Long's creek and Pound river sections, rich coal and timber fields, twenty-five miles, plans now being made looking to the early construction of the road. It is to be an extension of the Virginia & Kentucky railroad.

With the Baltimore & Ohio railroad getting considerable headway in the coal fields, the matter of a parallel line of the B. & O. with the Chesapeake & Ohio up the Big Sandy river, long talked of, is being revived again, and it is said plans are being perfected looking to that end. Those who have the matter in hand say it is absolutely necessary in order to handle the immense coal tonnage that is sure to be handled over the Big Sandy river route. With only the C. & O. to handle this big tonnage and the big increase that is sure to come with the completion of the C. & O. through the "Breaks," railroad projectors see and know something must be done and that at once.

The big shipments that are to come from along the line of the Sandy Valley & Elkhorn (owned by the B. & O.) from Jenkins and vicinity, will eventually tax the C. & O. to its limit, much less the big operations now coming into reality along Beaver creek.

The big operations being started

by the Mineral Fuel Company at Fleming, on Wright's Fork, is getting into good headway, a large number of boarding houses, bungalows, etc., have been completed, and increases are being made from time to time in the working forces. Their product is to be handled by the Lexington & Eastern, already becoming a heavy coal carrier. With the big operations of the Consolidation Coal Company at McRoberts, and the large coal tonnage soon to be going out from that point, it is thoroughly evident that the L. & E. will at length be taxed to its limit. The territory around Hazard, Perry county, will also soon be sending out a large tonnage, as a number of large mines are rapidly nearing completion.

All told, the whole of Eastern Kentucky is rapidly becoming a great industrial and commercial section; millions of dollars are being expended by the great development forces now on the ground.

A West Virginia state concern is locating a large stove mill on Colly creek, five miles from here, near the new line of the Lexington & Eastern, to develop a large boundary of fine timber. A large number of men will be employed.

MORGAN COUNTY OIL.

Morgan county operations continue unabated and a number of new drills have been moved into the field. No strikes of large capacity have been made lately, but several completions show a production above the average, and the county is one of the best bets for future operations. A field of considerable extent has been proven around Campton, while the present era of wild-cattling is taking the drill into a large outlying territory. One new strike makes twenty barrels.

Petroleum prices remain firm at \$1.35 and 70 cents per barrel, respectively, as compared with 91 and 53 cents per barrel last year.

THREE NEW WELLS

To be Drilled Near Louisa within Next Few Weeks.

It is reported that three wells will be drilled soon on the farms of Wm. Savage and two of his neighbors. The Ohio Fuel Oil Co. owns the leases and will do the developing.

The well recently drilled by this company on the Joe Hutchinson place is reported to be making a little more than three barrels per day.

The well recently drilled by the Wayne Oil Company on the Wellman tract was shot Wednesday and is now being cleaned out. The well on the D. C. Hughes tract adjoining, belonging to the same company, is reported to be making eight barrels per day.

The Ohio Fuel Company is preparing to pipe the gas from the Tom Hays well near Yatesville to the locations referred to above, for use as fuel in drilling the three wells.

HARRIS-DIXON.

Last Saturday, at Williamson, W. Va., at the home of Mr. and Mrs. Fred Hutchinson, Mr. Earl Harris and Miss Fay Dixon, of this city, were united in marriage. The bride is the eldest daughter of John Dixon, and the groom is a son of Elder and Mrs. E. J. Harris. They are prominent young people and have the best wishes of their many friends. They will make their future home in Williamson.—Paintsville Herald.

WAS IN TROUBLE HERE.

It is said that Wes Combs, who is in jail at Prestonsburg charged with the murder of James Salsberry at the mouth of Beaver on the night of July 16, was taken from a train here some months ago and locked up on charges of drunkenness and carrying concealed weapons.

Presiding Elder Williams, of the M. E. Church South, held the fourth quarterly meeting here Sunday, preaching an excellent sermon at night.

NEW GAS LINE

From Inez to Louisville Will be Laid This Season.

The company which is to supply natural gas to Louisville has already secured a line from the wells in the western part of West Virginia to Inez, Ky. From this point a right of way has been secured almost in a bee line to Louisville, and passes west of West Liberty in Morgan-co., Frenchburg in Menefee, Winchester in Clark, runs about eight miles south of Lexington and five miles north of Versailles in Fayette and Woodford, about middle distance between Lawrenceburg and Frankfort, about 5 miles from Shelbyville, and thence to Louisville.

A right of way has been secured along the whole distance, except a few gaps, where condemnation may be necessary.

The order for the pipe and fittings has been placed, and it is intended to start work on the line at several places at the same time.

It is estimated that in point of time for the completion of the work, one mile in the mountains is equal to two miles in the flat country, so that arrangements have been made to start the gangs closer together in the mountainous part of the country through which the line comes.

The line will be of 12-inch steel pipe, tested to 400 pounds pressure per square inch. The joints will be of the most modern construction, made absolutely tight before the ditch is filled. The pipe will be placed in a deep trench, so as to allow at least a two-foot cover over the top of the pipe. In this way it will not interfere with the cultivation of the land.

At river crossings two pipes will be laid, each one large enough to carry all the gas, in case accident should occur to the other. Arrangements are made so that the broken pipe can be shut off while repairs are being made without losing any gas.

The distance from Louisville to the gas fields is about 210 miles, but by securing the use of the line to Inez, the pipe that must be constructed to Louisville amounts to about 185 miles.—Evening Post.

BAD STORM.

What was probably the worst storm that ever devastated a country swept over this section about noon on last Saturday. Quite a heavy squall of wind, rain and hail visited us on the previous day, and we thought there would be fair weather for a few days at least, but on the day mentioned it looked for about an hour as if there would not be much left of houses and crops. The storm came very suddenly from the southwest, being, as was afterwards ascertained, a part of the tornado which did so much damage in Central Kentucky. A low, hung cloud of huge dimensions and inky blackness seemed to ride on the wings of the wind. It fell over the town and adjacent territory, and in almost a twinkling it was as dark as total blindness. Lamps were hastily lighted, but they could do nothing to relieve the blackness of the streets.

Meanwhile the wind howled and the water fell in hogheads full. To say it rained is putting it too mildly. Trees were stripped of their limbs and were torn up by the roots. Nearly every garden in town and country was ruined. What the drought left the flood took. Miles of fencing were swept away, acres upon acres of corn were ruined and hillside fields washed bare. From every section of the country comes the cry of labor and money lost by the fury of the gale and the down-pour of water.

So far as the NEWS has been able to learn there has been neither loss of life nor limb.

A GIPSY BAND.

A band of gipsies, so called, passed through Louisa last Monday. There were four two-horse wagon loads of them, men, women and children.

AGAIN MRS. WELLMAN.

Neal Wellman, Williamson, W. Va., and Mrs. P. H. Webbe, Prichard, W. Va., and hereby hangs a tale: Some years ago Neal Wellman wooed and won pretty Bertha Thompson a popular Wayne county teacher, after a few years the couple became estranged and were divorced, after which Mrs. Wellman was wedded to P. H. Webbe, with whom she lived until his death later she continuing her vocation as teacher. The first husband however, never having forgotten his first love renewed his wooing of the pretty young widow, who decided to return to her first devotee. The pretty wedding that took place at the home of C. R. Strother here yesterday, the ceremony being performed by Rev. R. W. Grant, was the sequel to this tragedy of hearts that has been waged for the past few years and finally ended most happily. Notwithstanding the varied experience, both are still young, but have doubtless in this time, learned to bear and forbear.—Catlettsburg Item.

DIED IN FORT GAY.

Herbert Vanhooze, aged 35 years, died at the residence of his father, Jasper Vanhooze, on Friday last and was buried the following day in Fairview cemetery. Mr. Vanhooze had been sick about four days at his home at Kermitt, W. Va., before he was brought to Fort Gay on the day before his death, which was the result of blood poisoning, but what caused the condition which produced the fatal result is not known. Mr. Vanhooze leaves a widow and one child. His wife is a daughter of George Chapman, of Wolfe, Martin county.

JOHN F. HAGER PRESIDENT.

Mr. John F. Hager has returned home from Richmond, Va., where he attended a meeting of the directors of the newly organized Elkhorn Mining corporation, of which he was elected president.

The maximum capital of the company is \$6,750,000. The principal office is to be in Richmond, and the new concern is permitted to own as much as 200,000 acres of real estate. Ernest B. Flippen and H. H. Chalkley, both of Richmond, are secretary and treasurer respectively. The corporation will act as a holding company.—Ashland Independent.

A TYPHOID PATIENT.

Miss Trogett was brought to Riverview hospital from Paintsville Tuesday, sick of typhoid fever. She was one of a carnival crowd which has been holding forth in that town, and was taken sick several days ago. Before her companions left they contributed something for her, and the citizens of Paintsville gave liberally. Miss Trogett is 18 years old and has relatives in Lexington and Cincinnati. She was accompanied to the hospital by Miss Hamm, a trained nurse.

LAWN PARTY.

Miss Vivian Hays entertained very handsomely on Saturday evening last. The beautiful lawn surrounding her home was brilliant with Japanese lanterns, and the occasion was a very pleasant one.

A TWO DAY FESTIVAL.

The ladies of the M. E. Church South are holding a two days festival this week, Thursday and Friday. The place is a fitting one, the spacious lawn surrounding the residence of Mr. H. C. Sullivan. On both afternoons and evenings cake, ice cream and iced tea will be served. During the evenings light will be furnished by means of Japanese lanterns. Attend and be refreshed.

JUMPED FROM TRAIN.

John Preston, aged 17, son of Ed. Preston, who lives not far from Chestnut, Johnson county, jumped from a moving freight train near his home on Wednesday last and was painfully hurt. One wrist is broken and dislocated, making an injury from which he will not entirely recover for a long time. He also sustained some minor injuries.

The general public seems a long time in learning that jumping on or from a moving train is a dangerous procedure.

TUSCULA.

The harshest wind and rain storm that has struck this section in the past fifty years struck here Saturday shortly after 12 o'clock. For a time before the wind and rain it was so dark that you couldn't see your way. Then the wind and rain came in all their fury. Huge trees were twisted and blown down or uprooted; corn fields were torn to pieces, fields that were so prosperous at noon were a dreary looking sight within an hour. It looked as if logs had been rolled over the fields. Orchards blown down and damaged in some instances, the trees being entirely ruined. Wheat and oats were scattered over the ground and soaked with water.

Hundreds of panels of fence were blown down and pastures and grain fields thrown together and farmers could be seen on Sunday trying to save the remnant left by the storm.

A. J. Webb, of Olivette has been quite sick for some time.

The little children of M. V. Thompson are on the sick list.

Our Sunday school at Olivette is progressing nicely and the school is to have a candy treat next Sunday. In union there is strength. Come and be with us.

TUSCULA.

The harshest wind and rain storm that has struck this section in the past fifty years struck here Saturday shortly after 12 o'clock. For a time before the wind and rain it was so dark that you couldn't see your way. Then the wind and rain came in all their fury. Huge trees were twisted and blown down or uprooted; corn fields were torn to pieces, fields that were so prosperous at noon were a dreary looking sight within an hour. It looked as if logs had been rolled over the fields. Orchards blown down and damaged in some instances, the trees being entirely ruined. Wheat and oats were scattered over the ground and soaked with water.

Hundreds of panels of fence were blown down and pastures and grain fields thrown together and farmers could be seen on Sunday trying to save the remnant left by the storm.

A. J. Webb, of Olivette has been quite sick for some time.

OUR SCHOOL DEPARTMENT.

Now that schools have begun for a new term we are anxious that you send us reports of your enrollment and make any remarks about anything you are doing or expect to do this year that you think would be of interest to other teachers.

Last term some teachers seemed to think we failed to print some parts of their letters for personal reasons. We shall reply to that by saying we print only such parts of letters that are of interest to other teachers. No letters commending nor criticizing the county supervisors will be printed.

I shall be at home Aug. 2: and shall arrange your reports; and letters for the next week. Teachers reporting should address me at Blaine instead of Torchlight, where you did last year.

E. E. WHEELER.

The Big Sandy News has kindly consented to give the School Department free space again this year and it is hoped that every teacher in the county will take advantage of this splendid opportunity and report promptly to the Dept. Editor all interesting facts connected with their work that would in anyway be interesting and helpful to the schools throughout the county.

Mr. Emory E. Wheeler will have charge of this department again this year. His address will be Blaine, Ky., and all news for this department must be mailed to him by the end of the week preceding the publication of the NEWS, in order that he may have time to arrange the items for publication and have them in the hands of the editor of the NEWS by Monday morning of each week.

The School Department of the Big Sandy News has for the past two years been quite a factor in stimulating interest in the schools of this county, and teachers, trustees, pupils and patrons alike are benefitted thereby. Many counties throughout the state have noted its good results, and are maintaining a school department in their local papers. Every live teacher should take pride in this department of the Big Sandy News, and endeavor to make it more interesting and helpful this year than ever before, by reporting to the Dept. Editor all the good things connected with your work, and the teacher who has no good things to report must necessarily be regarded as a failure and not up to the standard. So, let's all work to make this the most interesting column in the Big Sandy News, and let it be the medium for the exchange of ideas that are worth while to the profession.

Look in the School Department each week for explanations touching the administration of the school laws by the County Supt. and the various questions that are continually coming up regarding the schools. A great many inquiries have been made concerning children attending school outside of their home district. No teacher can count the attendance of children who do not reside in the district and who are between the ages of 6 and 20. Every teacher must subscribe and swear to the following oath, sent out by the State Dept. before any pay can be drawn on their percentage. The oath is as follows:

OATH OF TEACHER.

Term Per Cent. of Attendance.
State of Kentucky, County of
I,, teacher in Div. No.
Sub-dist. No. County of
State of Kentucky, for the school year ending June 30, 191... do solemnly swear (or affirm) that the census for said sub-district for said school year is that the average daily attendance for the term has been and that the per cent of attendance based on the school census for the term is
In making this average daily attendance for the term I have counted only the pupils who are residents of the district and who are between the ages of 6 and 20 years.
Witness my hand, as teacher of said sub-district, this .. day of .. 191...
Teacher.
Sworn to before me this .. day of .. 191...
Title

However, if all the trustees and teachers interested consent to children attending school outside their home districts, they have a perfect right to do so, but their attendance must not be counted in with the legal attendance for which they are paid. All such attendance should be counted on the teacher's Term and Monthly Reports, but only the attendance inside the district can be counted in the oath.

In regard to school elections, I wish to state that the date of same is fixed by the statutes, not by me, and under the present law no petitions are required to be filed with the County Clerk or Supt; the election officers are selected from and by the voters present at the opening of the polls, and the elections are held by open ballot. For further instructions call on your trustees to whom definite instructions have been mailed. All women over 21 years of age, who can read and write, may vote for trustee or hold the office.

—oOo—

All cases of truancy should be reported to the supervising teacher of your division. Mr. Don C. Belcher has all the schools in Divs. 1, 2, 5, 8, except the Mattie, Ledocio and Adams schools in Div. 2, and the Pleasant Ridge school in Div. 5. Miss Elizabeth Lester has all the remaining schools in the county. No evasion of this law will be overlooked.

—oOo—

Let every teacher report the work of his or her School Improvement League to this department next week, and let's try to organize a league in every district this year.

Respy,
JAY O'DANIEL, Supt.

OBITUARY.

Mr. William Dolph Cole was born in North Carolina April 12, 1836, and died in Boyd county, Ky., July 15, 1913, aged 76 years, 3 months and 12 days. He was married in 1871 to Paulina Swetnam. To them was born one son, who survives him; also the widow. He went into the Confederate army in North Carolina very young, and fought through the war for what he believed to be right. He was a kind husband, good provider, and indulgent father and a good citizen, which was shown by his neighbors at his funeral, July 16th, by between three and five hundred attending it. It was preached at the church on East Fork by the Rev. Leslie Jarvis, of the Southern Methodist Church, of which he was a member, and had been for six years. He had been a professor six years and a devoted Christian. On several occasions he spoke to ministers and relatives and your writer said he was ready and willing and only waiting to go. He died of Bright's disease, and your writer is satisfied that he is in heaven with my mother, his mother and other loved ones, and may his wife, son and daughter-in-law and three grandchildren meet him.

I am authorized by his widow and son to thank the neighbors for their kind care and treatment and help to their father and husband during his sickness and burial, and to the ministers who so kindly ministered to his spiritual wants.

YATESVILLE.

One of the most destructive storms in the history of our county visited us on last Saturday. Nearly everything such as houses, barns, the apple orchards and all of the growing crops is worsted to a greater or less extent, especially the corn crop is damaged very extensively.

A young Mr. Brown, a blind piano tuner, was here and put Hattie Carter's piano in tune, and rendered us some fine music, which was listened to and much appreciated by a number of our neighbors.

The Robt. Rice saw mill on Morgan's creek is doing a thriving business and quite a number of street car ties is being hauled to Louisville from where they are to be marketed. Mrs. Madge Swetnam, of Brushy, was visiting the family of her uncle, Landon Carter, Sunday, as was Attorney A. O. Carter, of Louisville. Will Rice, of East Fork, was visiting home folks this week.

Miss Gladys Woods, who has been visiting at Radnor, W. Va., for some time, has returned home.

John Workman, of Louisville, was here recently.

Marion Webb, our blacksmith, has gone to Pike county on business.

Our school is progressing nicely so far. All say that the new teacher is giving satisfaction.

Millard Crank went to Catlettburg Saturday on business.

Blackberries Have Gone Up.

And consequently fewer will go down. Just think of it: "Seventy-five cents a bucket, ma'am." The "poor man's strawberry," as some one has aptly called them, had a good start. The winter had been mild and the bloom was big, developing into countless millions of berries, but the drought came, and the luscious fruit shrank until they resembled dried raspberries. Only a few people wanted them had enough to pay the price.

Our Kodak and Photographic Department Complete to the Smallest Detail.

There should be a KODAK in every family. It's the little, intimate, every day home scenes that make up the home story we would like to keep—little things the children do you know and the cost is so small.

Then it's fine to have one when you go on the vacation or driving or motoring anywhere—any time you'll enjoy the KODAK.

Now before you forget it write us for a catalog of these Kodaks and Supplies, and remember that our expert service is always at your command for any information you may need.

Just a Word Regarding Our Stock For the Amateur or Expert.

You will find this department complete — there is nothing worth while or necessary that we do not have.

THE VOTERS OF LAWRENCE COUNTY KENTUCKY.

I am a candidate for Jailer, subject to the action of the Republican party. I was born and raised in Lawrence county.

Gentlemen, I am the first and only Young in Lawrence county to ask the people for a county office in Lawrence county, and the Young generation in Lawrence county is as old as the county, and they are all natural born Republicans, and have helped to elect each and every Republican officer in Lawrence County. The Young generation in Lawrence county number one among, if not the largest families in Lawrence County.

Now, gentlemen, I feel that it is the duty of the voters of Lawrence

that will insure my nomination.

Trusting and thanking you for your help in the August primary.

I remain as ever your friend,

HENRY S. YOUNG,

Louisville, Ky.

Assistant Solicitor Wallace, of the C. & O., was called Monday to Richmond, Va., on legal business of the road.

FAIR EXCHANGE.

A New Back for an Old One—How a Louisville Resident Made a Bad Back Strong.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You the example of this Louisville citizen.

Mrs. C. A. Evans, Louisville, Ky., says: "Doan's Kidney Pills helped me a great deal. One of my family often complained of his back being weak and lame. When doing any stooping, sharp pains shot through his back. I had heard so many people recommending Doan's Kidney Pills that I advised their use. They were procured at the Louisville Drug Store Co. After they were taken, there was no further cause for complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HENRY S. YOUNG.

county to help nominate and elect me as your next Jailer. If you will nominate and elect me to this office I am sure I can and will make you as good, if not a better, Jailer as ever the county of Lawrence ever had.

If elected to this office I will, as a gentleman, step down and give the office over to your next elector at the end of the term of 4 years.

Owin to sickness I may not be able to visit the homes of all of you. If I fail to do so pardon me, but will try to get around, however. Remember to mark an X opposite my name on the ballot, the third name under the Jailer list. You will have my heartfelt gratitude as well as the thanks of the Young family.

I am sure you could not make any mistake by nominating and electing me as your next Jailer.

I am sure I can and will keep it as clean and sanitary as any man you could put in this office.

You pay taxes as well as I, and I pay taxes as well as you, and I believe that you as good voters of Lawrence county ought to nominate and elect me this time.

You could not elect a man that would appreciate it any more than I would. If you will honor me to this office this time I will respect the office as a gentleman, honor its full term of four years.

Hoping each and every voter will consider my qualification for this office. So don't forget to place an X opposite my name on August 2, when unfolding your ballot, and

C. E. HENSLEY'S POSITION.

The office of Jailer is the first I have ever asked at the hands of the good and loyal people of Lawrence county. I ask your vote only for one term of four years. I do not believe in a life tenure in office; believe it is repugnant to the principles of all parties. There are others who are entitled to recognition, and my idea is a four year term is sufficient for any man for Jailer. If you nominate and elect me I assure you that my acts as Jailer will be such that you will never be ashamed that you voted for me. If elected I assure you I will keep the jail and premises in a clean and sanitary condition.

J. W. CRITES, Pastor.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 15 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Lemons A Cure For Consumption.

The NEWS has been asked to publish this recipe. The lady who made the request says she has received decided benefit from its use.

A correspondent of an English medical journal furnishes the following recipe as a new cure for consumption: Put a dozen whole lemons in cold water and boil until soft (not too soft,) roll and squeeze until the juice is all extracted; sweeten the juice enough to be palatable, then drink. Use as many as a dozen a day. Should they cause pain or looseness of the bowels, lessen the quantity and use five or six a day until better. By the time you have used five or six doz. you will begin to gain strength and have an appetite. Of course as you get better you need not use as many. Follow these directions and we know that you will never regret it if there is any help for you. We know of two cases where both of the patients were given up by the physicians, and were in the last stages of consumption, yet both were cured by using lemons according to the directions we have stated. One lady in particular was bed-ridden and very low; had tried everything that money could procure, but all in vain, when, to please a friend, she was finally persuaded to use lemons. She began to use them in February, and in April she weighed 140 pounds. She is a well woman to-day, and likely to live as long as any of us.

ELECTION OFFICERS.

The primary election officers for upper Louisa are Hiram Mead, R., and A. J. Ward, D., judges; Hiram Layne, D., clerk, and H. H. Stansberry, R., sheriff. For lower Louisa, James Hale, R., and James M. Rice, D., judges; Will Cain, R., clerk, and F. L. Stewart, D., sheriff. The NEWS was furnished with a complete list of the officers for the county, but time and space prevented the publication of more than the list for the two Louisas.

Notice from County Clerk.

Notice is hereby given that I will have separate ballots prepared for all women to vote in the race for Co. Superintendent Schools of Lawrence county, in the primary election which will be held on August 2, 1913.

FROM J. W. HINKLE.

To the Democratic Voters of Lawrence County:

I take this method of soliciting the support of the Democratic voters as I have not had the time nor will I be able to see all of them before the Primary on the 2nd day of August, and thinking that this letter might fall into the hands of some of the voters whom it has not been my pleasure to see.

In submitting my claims to voters of my party for re-election as County Attorney, I do so with a consciousness that I have done the best I could under existing conditions. I have from the very start realized that I was a servant of the people and wished to serve them well. I have acted honestly, soberly, and have at all times and under all circumstances advised in all matters in which it was my duty to do, having the utmost regard for the welfare of not only the Democrats of my county, but all its citizens and I am not ashamed of my record or anything I have done. I am in a measure blamed by some for the condition of the roads, but no one deprecates the condition of the roads and the financial condition of the county more than I, and while I have no vote in the fiscal affairs of the county, as all should know, yet I have the questions of roads and finances of the county greatly at heart, and I believe that with an economical administration of the affairs of Lawrence county in the coming four years, and even at the very beginning of the new term, that the dawning of the day is not far distant when Lawrence county will be able to make her highways what they should be, and the financial standing of Lawrence county can be greatly changed and benefitted; and with the past three and a half years of experience I have had in county affairs would enable me to better serve the Lawrence county people than either of my opponents, against whom I have nothing to say. I believe I now have these matters sufficiently in hand that I can render to Lawrence county a greater and better service, than I have in the past and it will be my chief aim to do this. So come on, boys, and rally to my support once again and let us advise with each other and place Lawrence in the list of counties that stand at the head for good citizenship, loyalty and financial success.

Remember that my name is third and last on the ballot under the head of County Attorney.

Very gratefully yours

(adv.) JAMES W. HINKLE.

JOSEPH DAVIDSON HARKINS, JR.

The arrival cards of this young gentleman have been received in Louisa, announcing his coming to the village of Prestonsburg on July 12. He is the son of Joe Davidson Harkins, the grandson of Walter S. Harkins, and the great grandson of Joseph Davidson. With such ancestral legacy of brain and physical excellence, and such social contribution as he is sure to receive, the youngster is bound to be something worth while.

Messrs. Dana and Robert Shank, of Huntington, were here Sunday. They came on motorcycles and found it pretty tough going on account of rain and mud. They are sons of Mr. Shank, manager of the Louisa milling plant.

Why shouldn't other citizens emulate this excellent idea and imbue their children with thoughts of the worth of our flag? Salyersville Mountaineer.

WINCHESTER, Ky., July 17.—A sensation was sprung late Wednesday in the case of the Commonwealth against Andrew Johnson, one of the defendants charged with conspiracy to kill Ed Callahan, former Sheriff of Breathitt-co., who was assassinated when Dan Deaton, a defendant, who had not testified at the former trials, took the stand and made a full confession of the alleged plot to murder the former Sheriff.

When the name of Dan Deaton was called by the Commonwealth a look of surprise came into the faces of the attorneys for the defense, and the defendant, Andrew Johnson, became disconcerted. The defense tried in vain to shake his testimony. When Deaton took the stand the jury, on motion of the defense, was sent from the room and an objection was made to the witness' testimony. The objection was overruled. Judge Benton told the witness he would not be required to testify to anything which would incriminate himself. The jury then returned.

WHITESBURG.—A straw vote was taken in the Sheriff's race between John Haddington, John Adams and Marion Tolliver, the three candidates of that precinct, the former winning. As a result Adams and Tolliver have withdrawn. Late Tuesday W. E. aunt Sunday. BABY ROSE.

SUNDAY SCHOOLS HELP EDUCATION

Suggestions by Louisville Commercial Club.

BENEFITS OF CO-OPERATION.

Kentucky Sunday School Association Has Done Excellent Work, and Its Influence Can Be Extended Through the Efficient Aid of Public School Teachers and Superintendents.

The educational wave is rising in our old state. For a long time each and every organization that was helping the movement has been working independently. Now there is a desire to get together. The following report of a special committee on the work of the Sunday school association and that of the Louisville Commercial club, will explain itself.

The Kentucky Sunday School association has a splendid organization. Every county has some form of organization. Many of the people who are interested in all the best interests of the county are numbered among those who are connected with this association. These persons can be given a broader view of what the Sunday school, the public school and the home could do for the entire community, reaching into the physical, mental, social and spiritual development.

Not only the city pastors, but the rural pastors, who are in a measure leaders in the communities, are connected with the Sunday School association, and in many cases the public school teachers, superintendents of the county schools and others engaged in educational work.

The Commercial club is reaching through its wide system of publicity, the prices it has been offering, and the correspondence conducted, many who are interested in true education but whose viewpoint is different from that of Sunday school workers.

The Kentucky Sunday School association holds conventions in almost every county in the state every year attended by thousands of the better citizens. In addition to this several hundred district conventions and nearly a thousand rallies and conferences are held. This association also publishes the Kentucky Sunday School Reporter with a circulation of about 5,000 per month.

These two organizations could greatly strengthen and advance the work both are doing by securing one or more persons in each county who would represent both organizations. Under the direction of such persons a survey of many counties might be made, finding the present conditions and forming a common basis for future work. At the conventions held time could be given for the discussion of topics of vital interest for the upbuilding of the community, school, home and Sunday school and the length of the convention be increased to two entire days. The same thing could be done in district convention, rallies and institutes. By holding conferences where a wider range of topics would be presented each would be able to reach many that have not yet become interested. Then each could help the other.

Therefore we suggest: First.—That in the future on all programs of institutes, conventions and rallies there be given a topic relating to the correlation of secular and religious education in the state along definite lines and that this topic be assigned to a person well informed on both religious and secular education. In such way there might be the opportunity of bringing to the attention of people who have never thought on the matter the value of such correlation. Because of the wide opportunity which the Sunday school speaker has of reaching audiences in the state this would be the surest way of arousing enthusiasm, disseminating information and removing prejudice.

Second.—That in the future at all electing conventions—district, county and state—there be chosen superintendents who shall promote the co-operation of secular and religious educational forces along definite lines. Third.—That whenever opportunities arise the possibility of the use of the church as a social center be emphasized and encouraged, making a possible opening for the dissemination of educational ideas.

Fourth.—That at the state convention this work be made a distinct feature of the program and if possible a department session be given it.

The Truant Law.

When this law is so openly set at naught as to bring a particular case to the attention of the public it is time that a halt was called and the malefactor made to suffer for his shortcomings. The sending of a child to school is a moral duty, and when this moral duty is neglected by those whose duty it is to observe it is the duty of the authorities to step in and take a hand. We want to say that if the county superintendent's attention is called to some flagrant violation and she is compelled to set the strong arm of the law to fall in no gentle manner upon the shoulders of the malefactor. Better send the kiddies to school, which is your duty, and where they belong and thereby fulfill your moral obligation as well as avoid a conflict with the school authorities.—Central Record.

The state will institute proceedings against the Chesapeake and Ohio Railway Co., to compel it to redeem the excess fare coupons issued by it to the traveling public under Judge Burdette's order of June 28, 1910. As soon as the United States Supreme Court's mandate, upholding the two-cent rate law, is handed down suit will be commenced, declared Attorney General A. A. Lilly in a public statement issued last evening.

WHEELING, W. Va., July 17.—Telephone operators in South-eastern Ohio and West Virginia stuck to their posts and flashed warnings which caused people along the creeks and rivers to flee before the floods caused by the storm and cloud burst early today, in which it is feared that there was loss of life and heavy property damage.

The operators barely had time to send out their warnings when the wires went down and all connections are cut off as completely as in the March flood.

Darkness as complete as night although it was about 9 o'clock when the storm broke enveloped the country, in this city street lights were turned on and business generally was suspended.

A thousand persons on board two steamers ready to start for a park for the Grocers Annual picnic were thrown into a panic but none was injured.

Meager reports of the cloudburst in different section indicate that the small stream rose rapidly and a wall of water swept over the lowlands.

WEBSTER SPRINGS, July 19.—D. H. F. Asbury, delegate from Putnam county in the state legislature charged with accepting \$2,000 in bribe for the sale of his vote on the election of a United States senator last winter, came to the legislature to vindicate himself from similar charges made twelve years ago.

That was the testimony offered when Grant P. Hall, of Charleston and Jesse V. Sullivan, a newspaper writer, testified they overheard Dr. Asbury tell Detective Guy B. Biddinger, who planned the entrapment of the senator in a senatorial election 12 years before his vote decided the contest.

"I could not get any money out of it at that time but they told stories about me anyway and I was a candidate again for vindication. You were the first man who ever paid me money for my vote," was the statement attributed to the Putnam delegate by the witness.

MORGANTOWN, W. Va., July 16.—Robert Robinson, aged 16 months a son of Clarence Robinson, of Fairmount, had a miraculous escape from death when an automobile ran into the Monongahela river, carrying the child to the bottom with it. The Robinsons came to visit friends and the children were taken

en to see an automobile which the host had purchased a few days ago. The Robinson child was placed in the rear seat of the machine when the automobile started.

The machine gained momentum as it traveled. It struck a telephone pole shortly after it had started, swerved and struck a house, swerved again and ran into the river. It turned over in the water, taking the child under with it. David Flynn, a bystander, dived for the child twice, finally rescuing it uninjured, except for a bruise on the chin.

OMNISCIENT.

KENTUCKY TUBERCULOSIS COMMISSION.

The people who ask fool questions are often in evidence about tuberculosis exhibits as well as other similar places. Not long ago a man decidedly under the influence of liquor went into a tuberculosis exhibit in Kentucky, evidently with the intention of finding some sort of pleasant justification for his personal habits.

"Say, Doctor," he addressed the man in charge, "if a man smokes or chews a good deal won't that destroy all these tuberculosis germs that can get into his body?"

"No, that is not the case. We find that the germs of consumption will live just as readily in the lungs of a tobacco-user as in any other person, and they will be found in his sputum in the same way."

"Well, if a man will drink enough whiskey, won't that protect him?"

"No, that is even worse. A person who is a constant user of alcoholic drinks is rendered more susceptible to the attacks of tuberculosis and all other germ diseases than the total abstainer."

Apparently very much crestfallen, the visitor left and is now compelled to find some other excuse for his habits to render to his wife.

HOME GARDEN CLUBS GROWING

Campfire Girls of Louisville Use Vacant Lots.

ADVICE FROM AN EXPERT.

Children Taught to Help Furnish Their Own Tables With Fresh Vegetables. Idea is Spreading to Country Towns. Future Men and Women In Close Contact With Growing Things.

The continual cry, "Back to the soil," that is heard in the newspapers and magazines is keeping the attention of the people in the country as well as those in the city fixed on gardening and farming. This is not only true of the small town and the back country, but it is also true of our big cities, for home garden clubs are growing in popularity and in numbers each season.

This spring the city of Louisville organized a home garden club that gardening among men, women and children, and especially the children, might be pushed. That the work might be real and that definite results might be obtained, vacant lots were secured at various points and model gardens

HOME GARDEN CLUB GIRLS.

planted. A man who had practical experience was engaged to take charge of the work and is now busy moving from place to place suggesting plans and methods by which the children can help furnish their own tables with vegetables fresh from their own gardens.

The photo which accompanies this article was taken on the outskirts of Louisville, where a group of four Campfire Girls have a model four plot garden.

This work will have a vital effect upon the men and women of tomorrow by giving them an understanding and a growth which can only come through close contact with the soil and growing things. Education is gradually shifting to a rational use of books and a fuller use of the life which the child leads in the garden, in the home, and under blue skies. It means an education that makes red blood throb in young veins; it means an education that does things in the everyday world; it means an education that is close to the primitive; it means an education that fits the child for life.

"BACK TO THE SOIL"

Movement Can Be Aided by Modern Ideals and Methods.

The effort to better rural conditions is touching a fundamental problem of American life. The "back to the soil" agitation can have little permanent effect until we go back to the tiller of the soil with the inspiration and enlightenment of modern ideals and methods. We must carry the message into every fertile valley and to every mountain side; we must get back from the traveled roads and the steam and electric lines; we must reach the little isolated schoolhouses, the country churches and every other agency that can be a source of help. We can give the schoolteacher and the itinerant preacher a broader viewpoint and deeper interest in the welfare of their charges—an interest deeper because more practical and more hopeful.

Nor must we rest with this. A striking feature of the new movement is the determined effort to show the business man in the city that he has a point of intimate contact with the farmer—that in mutual help is to be found advantage for both.

We like this work because it is based on sound social lines. It is in harmony with the finest ideals of the time. There is immense satisfaction to Kentuckians in finding the old state assuming a place of leadership in an undertaking so splendid and so promising. —Editorial in Louisville Herald, April 2.

How to Aid Schools.

Our public schools are not what they should be by any means mainly because of the disinterestedness of the parents. Co-operation is absolutely necessary if you would have a successful school taught in your community. Show your interest by visiting your school. Get acquainted with the teacher, learn her strong as well as her weak point and let her understand that you are interested. Let the children also know that you place a value upon their work. —Barry C. Cline.

A SUGGESTION ABOUT PELLAGRA.

Two Italians, professors of the Institute of Hygiene in Rome, have announced that pellagra, a mysterious in deadly disease quite prevalent in parts of Italy, and which for long has been attributed to the consumption of bad corn, is really caused by infected water, and that they have found that in the districts of Italy where the disease is most prevalent the water is infected. William E. Hughes, of Charleston, S. C., president of the Hughes Specialty Well Drilling Co., referring to this announcement by the Roman doctors, says:

"Of course, this may not be conclusive any more than the old-time and somewhat abandoned idea that it was caused by corn. In any event it is worth making note of."

If bad water is causing pellagra, it is within the means of our people to wipe out this plague by the drilling of wells and substituting pure artesian water for present water supply from impure sources."

James R. Randall not only wrote

verse, but also interested himself in many of the material problems of the South. Readers of the Manufacturers Record will recall his contention that malaria was a misnomer, and should be really malagua, and his further argument that with the substitution of pure water for infected water malaria would disappear. Mr. Randall's argument was substantiated by facts following the driving of artesian wells in different parts of the South and abandonment of surface well water for drinking purposes. It is quite probable, therefore, from a layman's standpoint, that the discovery by the Italian doctors may be a valuable one, and may lead to the abandonment of other theories by so-called experts about the origins of other human ills.—Manufacturers Record.

PIKE COUNTY NEWS

All the Interesting Happenings in Our Big Neighboring County.

COUNTY STORM-SWEPT; CITY IN DARKNESS.

The storm that worked so much havoc in Central Kentucky last week struck Pike county in full force, laying to the ground the fine crops that bloomed upon every farm, uprooting large trees, damaging property upon every hand, and finally winding up by making Pikeville as dark as the black hole of Calcutta.

The first indication of the storm seen at Pikeville was an immense rolling black cloud that loomed up to the westward, very much resembling a cyclone. The rumbling thunder and blinding flashes of lightning put the cat on some of the nervous folks of Pikeville, and we liked to have had some deaths from fright. This was at 10 o'clock at night. At eleven an electrical discharge struck one of the mains of the Pike Light & Power Company, going into the power station over the wires. The shock overcame a battery of lightning arresters and burnt out the armatures of both generators. Pikeville is now in total darkness. The armatures were sent away for repairs, and are expected back today. It is very probable that we will have lights again tomorrow (Saturday) night.

The storm paralyzed every industry of the city by breaking down the lighting system, and no one can tell the exact amount of damage actually done in the country, although it is enormous. Telephone lines have been crippled, as well as the telegraph, and in one place it is said twelve or fifteen poles were twisted out of the ground by the phenomenal force of torsion which the storm wielded, and for three days every means of wire communication was completely cut off.

Pike county has never before been subjected to such a fury of the elements.

SCHOOL OPENS.

The public school opened its doors for the free school term last Monday morning with an enrollment of over 200 scholars, under the tutelage of Prof. J. M. Staton and T. J. Kendrick, assisted by Mrs. Robt. Elliott and Miss Dollie Stepp. This is the most splendid and proficient corps of teachers that the school has ever had, and the opening of the term was under most encouraging circumstances. The teachers are confident that this large attendance will be still further increased during the first month of the school until it will probably pass the three hundred mark.

WRECK AT JENKINS.

Seven cars out of a coal train were wrecked at bridge No. 10 at Jenkins last Monday evening. No one was hurt, but the damage was considerable.

CITY NOW OWNS ITS SEWER SYSTEM.

Recently the city water works company succeeded in doing what it has tried to do for five years—give the sewerage system to the city. This gift has met with the approval of some and the disapproval of others. The company has received much kindness and fostering care from the city since its organization, and those who oppose the gift claim that this is the straw that breaks the camel's back. Their contentions are that the city now has a white elephant on its hands, and that the new acquisition will entail endless litigation against the town for damages which every overflow that rains send upon us, and that the city must now spend hundreds of dollars in extending these lines without profit wherever they are demanded, and that to keep them free from going, etc., will cost many hundreds more. It is an undisputed fact that the results of the sewerage system have always been found upon the wrong side of the books when the company owned it, and the franchise under which they operate binds the waterworks company to maintain also the sewage, on the principle of give-and-take; and it does seem unfair to compel the city to shoulder the loss and give the company clear sailing to profits. Added to this, upon complaint of the company several months ago that the balance was showing up on the wrong side of the books each month, they were allowed to surrender their franchise, and a new one was granted, privileging them to raise their prices from \$1.00 to \$1.25 for each hydrant. City attorney J. S. Cline advised that the city might accept the sewerage if the company would agree to reduce their rate again to \$1.00, but by the assent of council the gift was accepted without the suggested reduction. Those who favor the acceptance of the gift rebut the presumption of useless expenses by arguing that the private citizen may now tap the sewer mains when and where he pleases without cost; and in that way an ordinance may now be passed compelling all closets to be connected to the mains, which would indeed be a helpful advance in matters of sanitation. The arguments upon both sides of this controversy are not without foundation.

PUBLIC SCHOOL OPENS.

The free school term opened last Monday morning at the public school building, with Prof. J. M. Staton and T. J. Kendrick in charge, assisted by Mrs. Robt. Elliott and Miss Dollie Stepp.

On the opening the attendance was large, and there is every prospect for a profitable term. The session will be a six months term.

KNIFE FIGHT AT STRINGTOWN SUNDAY.

The peaceful neighborhood of Stringtown, usually so quiet and without disturbance, was the scene of "Wild Work" Sunday night between four men who were drunk and at each others' throats with knives.

The Johnson boys, Sol and Colay from Island creek, took their licker and journeyed to Stringtown to spend the day. These young men have been long noted for their bullying qualities, and they just meant to cap it all off with this one big climax. So, after dark they met Emery Coleman, the step son of old man Sol England. They opened up on Coleman, intending, it is said, to put him hors de combat. The old man was standing by, and he just pulled out his old Barlow and went to work. This gave the young man a chance to free himself, from the murderous blows, and he too went after his blade. The air certainly sang to the music of buzzing steel for a few minutes; and when the melee was ended by the interference of strangers, Uncle Sol England was found to have a broken rib in his left side, Colay Johnson was gashed several times in the abdomen, one of which was between 5 and 7 inches in length, and his brother Sol was so badly hurt about the head that it was feared he would die. The chances are now that all will recover, however.

TAKEN FROM PIKEVILLE TO PRESTONSBURG FOR TRIAL.

Sheriff Lee May of Prestonsburg came to Pikeville last Friday night with two of his deputies and took the two men, Bob Hall and Newberry Brown, held him on a point charged of murder with Wes Combs, of Beaver Creek, back to Prestonsburg, where they were lodged in the Floyd-co. jail. These three men were accorded an examining trial at Prestonsburg last Saturday, and Brown and Hall were acquitted. They returned to Pikeville Saturday night.

SOCIETY.

Mrs. J. D. Redd, of Millersburg, Ky., with her two daughters, the Misses Nola and Mary Bruce, have been the guest of Mrs. Redd's son Herman here for a few days. They returned home last Tuesday.

Mrs. Chas. W. Bentley left last Monday for Williamson, W. Va., where she will visit her parents. Mr. and Mrs. Jere Blackburn, for a few weeks.

Mr. and Mrs. J. Clinton Neikirk left with their two little boys, Harry and Samuel, for their home at Graham, Va., after having been the guests of Mr. Neikirk's parents, Mr. and Mrs. Jas. P. Neikirk, here for several weeks.

A moonlight picnic was given in honor of Mrs. Dr. Stone, of Clarksburg, W. Va., by several friends at Jenkins last Friday evening. The party was held on Raven's Rock, and a large number of guests were present.

Miss Fred Feurt gave a stag party to several friends last Friday evening at the home of Mrs. W. W. Gray, on Second street, in honor of Mr. Dowell Oldham, of Lexington. Among the guests were Mr. and Mrs. Gray, Mr. and Mrs. Engler, Mr. O'dham, and Messrs. Glen Mumaw, Everett Sowards and John Hatcher. A party was given by Dr. and Mrs. J. D. Meade at their home on Second street last Friday evening in honor of Miss Donna Price, of Paintsville. A large gathering of guests was present.

J. M. Evans, of Louisa, was here Tuesday.

Dr. O. K. Bond, of Meta, has been in town for several days.

Mrs. William Bartley died at her home at Penny, Ky., last Monday of stomach trouble. She had been sick for several months.

Attorney Tom West, of Williamson, was here last Saturday for a brief visit. Mr. West has been in Pike-co., for several days on professional business.

James, George and Ed Elliott returned last week from a visit of several months to their farm on Beaver creek in Floyd-co.

Pikeville is enjoying the Little John Street Carnival this week.

Jack Adams, of Salyersville, was here last Saturday.

J. M. Paynter, of Ashland, is a business caller here this week.

Wade Buskirk and Will Jackson, two of our young painters who have been at Ironton, O., for several weeks at work, have returned to Pikeville.

T. J. Robinson, of Catlettsburg, spent last Saturday here.

Although very few citizens know it, it is now lawful to use the Parcel Post stamps upon packages of any kind or upon letters, this being a new law going into effect recently. Considerable inconvenience had arisen from the exclusive use of the parcels post stamps and from now on one can be used upon letters if a person so desires.

Several letters have recently entered the mails with the parcels stamps thereon. Several believed this was not according to the post office regulations, but it develops that it was O. K.

We believe Boyd county can boast of as many candidates for office as most any other in the state. We have 143, but we have the consolation of knowing that the time is short for many of them, who will finish out the season figuring out "how it happened."

Charley Meade has gone to Ethel, W. Va., where he has employment with a coal company.

Miss Amanda Williams is visiting her sister at Ohley, W. Va., this week.

G. H. Wolfe, whose employment is on Pond Creek, Ky., came down home for a few days' rest last week.

The sick as follows are all very much improved: Infant child of Jno. W. Stewart, infant child of Arch Vickers, Mrs. Fred Adkins, Mrs. Chas. Kitchen and the young son of Riley Stephens.

N. H. Hamilton, commonly known as "Nick, the Scout," of Straight Creek, was over Monday of this week.

BUCKSKIN BESS.

NO RIOT HERE.

One policeman is in the hospital, two others are nursing bruises and awaiting new uniforms, and part of the Union League Baseball park Washington, is a wreck as the result of a riot at a Sunday baseball game when four thousand enthusiasts discovered that a team of "bloomer" girls were really men in disguise.

COUNTY STORM-SWEPT; CITY IN DARKNESS.

The storm that worked so much havoc in Central Kentucky last week struck Pike county in full force, laying to the ground the fine crops that bloomed upon every farm, uprooting large trees, damaging property upon every hand, and finally winding up by making Pikeville as dark as the black hole of Calcutta.

The first indication of the storm seen at Pikeville was an immense rolling black cloud that loomed up to the westward, very much resembling a cyclone. The rumbling thunder and blinding flashes of lightning put the cat on some of the nervous folks of Pikeville, and we liked to have had some deaths from fright. This was at 10 o'clock at night. At eleven an electrical discharge struck one of the mains of the Pike Light & Power Company, going into the power station over the wires. The shock overcame a battery of lightning arresters and burnt out the armatures of both generators. Pikeville is now in total darkness. The armatures were sent away for repairs, and are expected back today. It is very probable that we will have lights again tomorrow (Saturday) night.

The storm paralyzed every industry of the city by breaking down the lighting system, and no one can tell the exact amount of damage actually done in the country, although it is enormous. Telephone lines have been crippled, as well as the telegraph, and in one place it is said twelve or fifteen polls were twisted out of the ground by the phenomenal force of torsion which the storm wielded, and for three days every means of wire communication was completely cut off.

Pike county has never before been subjected to such a fury of the elements.

SCHOOL OPENS.

The public school opened its doors for the free school term last Monday morning with an enrollment of over 200 scholars, under the tutelage of Profs. J. M. Staton and T. J. Kendrick, assisted by Mrs. Robt. Elliott and Miss Dollie Stepp. This is the most splendid and proficient corps of teachers that the school has ever had and the opening of the term was under most encouraging circumstances. The teachers are confident that this large attendance will be still further increased during the first month of the school until it will probably pass the three hundred mark.

WRECK AT JENKINS.

Seven cars out of a coal train were wrecked at bridge No. 10 at Jenkins last Monday evening. No one was hurt, but the damage was considerable.

CITY NOW OWNS ITS SEWER SYSTEM.

Recently the city water works company succeeded in doing what it has tried to do for five years—give the sewerage system to the city. This gift has met with the approval of some and the disapproval of others. The company has received much kindness and fostering care from the city since its organization, and those who oppose the gift claim that this is the straw that breaks the camel's back. Their contentions are that the city now has a white elephant on its hands, and that the new acquisition will entail endless litigation against the town for damages which every overflow that rains send upon us, and that the city must now spend hundreds of dollars in extending these lines without profit wherever they are demanded, and that to keep them free from going, etc., will cost many hundreds more. It is an undisputed fact that the results of the sewerage system have always been found upon the wrong side of the books when the company owned it, and the franchise under which they operate binds the waterworks company to maintain also the sewage, on the principle of give-and-take; and it does seem unfair to compel the city to shoulder the loss and give the company clear sailing to profits. Added to this, upon complaint of the company several months ago that the balance was showing up on the wrong side of the books each month; they were allowed to surrender their franchise, and a new one was granted, privileging them to raise their prices from \$1.00 to \$1.25 for each hydrant. City attorney J. S. Cline advised that the city might accept the sewerage if the company would agree to reduce their rate again to \$1.00, but by the assent of council the gift was accepted without the suggested reduction. Those who favor the acceptance of the gift rebut the presumption of useless expenses by arguing that the private citizen may now tap the sewer mains when and where he pleases without cost; and in that way an ordinance may now be passed compelling all closets to be connected to the mains, which would indeed be a helpful advance in matters of sanitation. The arguments upon both sides of this controversy are not without foundation.

PUBLIC SCHOOL OPENS.

The free school term opened last Monday morning at the public school building, with Prof. J. M. Staton and T. J. Kendrick in charge, assisted by Mrs. Robt. Elliott and Miss Dollie Stepp.

On the opening the attendance was large, and there is every prospect for a profitable term. The session will be a six months term.

KNIFE FIGHT AT STRINGTOWN SUNDAY.

The peaceful neighborhood of Stringtown, usually so quiet and without disturbance, was the scene of "Wild Work" Sunday night between four men who were drunk and at each others' throats with knives.

The Johnson boys, Sol and Colay from Island creek, took their licker and journeyed to Stringtown to spend the day. These young men have been long noted for their bullying qualities, and they just meant to cap it all off with this one big climax. So, after dark they met Emery Coleman, the step son of old man Sol England. They opened up on Coleman, intending, it is said, to put him hors de combat. The old man was standing by, and he just pulled out his old Barlow and went to work. This gave the young man a chance to free himself, from the murderous blows, and he too went after his blade. The air certainly sang to the music of buzzing steel for a few minutes; and when the melee was ended by the interference of strangers, Uncle Sol England was found to have a broken rib in his left side, Colay Johnson was gashed several times in the abdomen, one of which was between 5 and 7 inches in length, and his brother Sol was so badly hurt about the head that it was feared he would die. The chances are now that all will recover, however.

TAKEN FROM PIKEVILLE TO PRESTONSBURG FOR TRIAL.

Sheriff Lee May of Prestonsburg came to Pikeville last Friday night with two of his deputies and took two men, Bob Hall and Newberry Brown, held him on a point charged of murder with Wes Combs, of Beaver Creek, back to Prestonsburg, where they were lodged in the Floyd-co. jail. These three men were accorded an examining trial at Prestonsburg last Saturday, and Brown and Hall were acquitted. They returned to Pikeville Saturday night.

AT PAINTSVILLE

Send for Information

A pretty wedding took place at the home of Richard England last Monday evening, when Miss Buena Slone, daughter of the late John Slone, ambushed revenue officer, was united in marriage to Mr. Curtis Wilburn Polley, of Ashland. Only a few friends witnessed the ceremony, which was performed by Rev. Rowe. The young people are well known at Pikeville. They will make their home at Ashland.

The Misses Merle and Dawn Flannery, of Catlettsburg, are guests of friends here this week.

LOCAL AND PERSONAL.

Now that Pikeville has paved streets, what efforts will they make to keep them clean and orderly?

J. H. Cooper, of Paintsville, is here on business this week.

Robt. Honaker has added a brick porch to his pretty home on Fourth street.

C. B. Sterling and family, who have been living at Excelsior, W. Va., for several months, have returned to Marrowbone to live.

J. M. Evans, of Louisa, was here Tuesday.

Dr. O. K. Bond, of Meta, has been in town for several days.

Mrs. William Bartley died at her home at Penny, Ky., last Monday of stomach trouble. She had been sick for several months.

Attorney Tom West, of Williamson, was here last Saturday for a brief visit. Mr. West has been in Pike-co., for several days on professional business.

James, George and Ed Elliott returned last week from a visit of several months to their farm on Beaver creek in Floyd-co.

Pikeville is enjoying the Little John Street Carnival this week.

Jack Adams, of Salyersville, was here last Saturday.

J. M. Paynter, of Ashland, is a business caller here this week.

Wade Buskirk and Will Jackson, two of our young painters who have been at Ironton, O., for several weeks at work, have returned to Pikeville.

T. J. Robinson, of Catlettsburg, spent last Saturday here.

Although very few citizens know it, it is now lawful to use the Parcel Post stamps upon packages of any kind or upon letters, this being a new law going into effect recently. Considerable inconvenience had arisen from the exclusive use of the parcels post stamps and from now on one can be used upon letters if a person so desires.

Several letters have recently entered the mails with the parcels stamps thereon. Several believed this was not according to the post office regulations, but it develops that it was O. K.

THE FIRST VOUCHER.

Confederate Veteran W. M. Stone has received his voucher for the payment of his pension. He is the first in this section to receive his bill.

NOTICE FOR REVIEWERS.
